- Nozzle Type: Automatic
- Capacity: 1000L - 6000L
- Highlight: **6m3 mini fuel station, mini fuel station automatic, automatic nozzle diesel station near me**

Product Description

Safe and Accurate Mini Fuel Station with Automatic Nozzle Type C1

Product Description:

The Mini Fuel Station is an ideal solution for those who require a mobile fueling solution for their business or personal use. Its compact size and lightweight design make it easy to transport and store, while its 6-foot hose length provides ample reach for refueling vehicles and equipment.

With the Mini Fuel Station, you can dispense fuel quickly and easily, without the need for a traditional gas station. This product is perfect for farmers, construction workers, and other professionals who require a reliable fueling solution on the go.

Using the Mini Fuel Station is simple and straightforward. Simply plug the unit into a 220V outlet, and it's ready to use. The C1 model is equipped with a user-friendly interface, making it easy to select the type of fuel you need and dispense it at the desired rate.

The Mini Fuel Station is also designed with safety in mind. Its durable construction and advanced safety features ensure that fuel is dispensed safely and efficiently, without any risk of spills or leaks. This product is also equipped with a locking mechanism to prevent unauthorized use.

Overall, the Mini Fuel Station is an excellent solution for anyone who needs a convenient, reliable, and efficient way to dispense fuel on the go. Its compact size, lightweight design, and user-friendly interface make it a must-have for anyone who requires a mobile fueling solution.

Applications:

One of the most common applications for the Virette C1 is for small businesses or individuals who need a mobile fuel station to refuel their vehicles or equipment. This mini fuel station is perfect for those who work in remote locations or for those who need to refuel their vehicles or equipment on the go. It can be easily transported on a truck or trailer and can be set up quickly wherever it is needed.

The Virette C1 is also a great option for those who have limited space for a fuel station. Its small size and compact design make it an ideal choice for those who have limited space but still need to store fuel for their vehicles or equipment.

Another great application for the Virette C1 is for events and festivals. Many events require a mobile fuel station to refuel generators, lighting, and other equipment. The Virette C1 is perfect for this type of scenario as it can be easily transported to the event location and set up quickly.

Construction sites are another great application for the Virette C1. Many construction sites require a mobile fuel station to refuel heavy equipment such as bulldozers, excavators, and cranes. The Virette C1 is perfect for this type of scenario as it can be easily transported to the construction site and set up quickly.

In summary, the Virette C1 is a versatile mobile fuel station that can be used in a variety of applications. Its compact size, portability, and ease of use make it an ideal choice for those who need a mini fuel station that can be easily transported wherever it is needed. With a capacity of 1-8CBM, a voltage of 220V, and a hose length of 6 feet, the Virette C1 is a great investment for individuals and businesses looking for a reliable and efficient mobile fuel station.
